Centre Road , Clayton South, VIC 3169

SUMMARY

Passionate and self-motivated IT graduate with a keen interest in software engineering. A fast learner and adaptable professional, I thrive in dynamic environments and contribute effectively as a team member. Bringing hands-on experience in mobile app development and full-stack development within an agile framework, I am particularly drawn to the software-as-a-service (SaaS) industry. However, I am open to opportunities in any organization committed to delivering high-quality software solutions to meet customer needs.

EDUCATION

Monash University
Bachelor of IT , Major in software development , Minor in mobile app development and cybersecurity
2022 – 2024

Monash college
Diploma of IT
2022 – 2022

SKILLS

- React , Angular , Java , Spring boot microservices
- iOS development with UIkit and swiftUI
- Android development with jetpack compose
- Github actions , CI/CD , AWS , kubernetes
- Domain driven design and CLEAN architecture
- Strong communication and interpersonal skills
- Ability to adapt and learn new things fast

HOBBIES & INTERESTS

Inline skating	Badminton
Comedy shows	Non Fiction Books
Open source projects	AI/ML

PROFESSIONAL EXPERIENCE

Software Engineer Intern

Reece Group | JUN 2023 - DEC 2023

- Full stack iOS development using UIkit and MVVM pattern with UI development , backend integration , analytics and testing
- Contributing to team agile ceremonies
- Full stack web development with Angular , Springboot and AWS event driven architecture
- Managing releases and deployment to production
- Developed a mobile app MVP utilizing OCR and NLP technology for easier form filling
- Implemented API optimisation mechanism that improved system performance by 15%

Freelance Fullstack developer

SEP 2023 - DEC 2023

- Creating an end to end internal software for managing and recording contracts and legal documents
- Conducted UX workshops, gathered requirements, and collaborated with client to ensure optimal user experiences.
- Leading a team with another student developer and a UX designer, in a sprint-based workflow using JIRA and Confluence.
- Acted as a full-stack developer, using React and Firebase serverless architecture, and github actions for CI/CD
- Successfully rolled out and tested the software, reporting a significant time-saving impact of 45%.

VOLUNTEERING & EXTRACURRICULAR

Student Investment Analyst

Monash Student Managed Fund (MSMF) | JUN 2023 – OCT 2023

- Conducted Equity Research , Risk and competitive advantage analysis and DCF (Discounted Cash Flow) valuation of Procter and Gamble
- Actively participated in weekly team huddles, contributing insights and findings to investment ideas
- Presented and pitched the final investment thesis with the team to a panel of investment bankers and hedge fund managers, adeptly answering questions and demonstrating a deep understanding of the subject matter.

Student Leader

Monash College | APR 2022 – OCT 2022

- Facilitated new student orientation, providing assistance to newcomers and aiding in their adjustment to the academic environment.
- Event planning initiatives tailored for new students, involved in planning a scavenger hunt game to foster engagement and community building.
- Contributed to the successful execution of the video game tournament day
